

“MAGNA CARTA” @ir - artisti in rete

Loppiano, April 1st, 2023

From a deep desire and an essential need, a NETWORK of ARTISTS was born in Italy — a weaving of souls and energies; people who, in truth and mutual respect, feel free to express themselves while aiming to live together by universal values.

We, emotion creators, choose the courage to unite in order to be proactive and a driving force: harmony among peoples.

An open network embracing all cultural orientations, founded on sharing — of projects and ideas, of insights and proposals — where each artist can feel welcomed, understood, and motivated. *"Like a family,"* as Chiara Lubich would say.

The most modern and effective "method" we feel is truly ours is that of SHARING. In short: **“UNITY, COMMUNION, MISSION”**, in service to the artists who wish to be part of the NETWORK.

"Artists in the network" becomes for us @ir, AIR like the air we breathe; our wish is for this network to become a space to catch our breath, to recover “oxygen,” and bring Beauty and Hope into the world with renewed energy.

To be a great artistic network of love in listening — sharing needs and proposing together new paths and possible solutions.

@ir begins with Italian artists but is open to international participation; in fact, our mission is a united world. An annual family-style gathering is the **Family Art**, a weekend where we come together to try to bring our intentions to life and chart future projects in harmony with each member of the network — in constructive dialogue for the common good, where everyone can feel like a true creator and promoter of visions and good practices.

A space of freedom to get to know each other deeply and without judgment, where everyone has the opportunity to be a protagonist.

From here, new projects could emerge (workshops, vacations, artist residency, events, etc.).

This meeting can take place anywhere in Italy. The location chosen for the first gathering is **Loppiano (FI)**, the citadel of the Focolare Movement, which has, in its history, offered many impulses and important formation aligned with what we now propose to do with our full presence.

In short, we are experiencing a new springtime, weaving authentic relationships to be ever more united and attentive to personal and social needs — first and foremost, to value talent and inspiration: that original spark of Beauty in each one of us.
